

Product Description

- Complete housing made of marine grade stainless steel #316
- PCB made of excellent heat conductivity aluminium, coefficient of heat conductivity  $\geq 2.0\text{w/mk}$
- Luminaire hard wired for single colour 2 x 1.0mm<sup>2</sup> 3 metres water resistant cable.
- Recommended installation depth upto 1 metre below the water surface.

SHERATON GRAND RESORT, CHENNAI

Technical Specifications

| General               |                              | Light Source            |             |
|-----------------------|------------------------------|-------------------------|-------------|
| ID                    | : 22814                      | Light source            | : OSRAM     |
| System Wattage        | : 30W LED                    | CRI (Ra)                | : $\geq 80$ |
| Driver Mounting       | : Non Integral               | LED Colour Temperature  | : 3000K     |
| Operating Current     | : 1520mA                     | Driver Options          |             |
| Operating Temperature | : -20°C ~ +40°C              |                         |             |
| Physical              |                              | Remote Driver           |             |
| Body                  | : Marine grade SS 316        | Dimmable                |             |
| Diffuser              | : Step Tempered Glass T=10mm | Optical                 |             |
| Gasket                | : Silicone                   |                         |             |
| Mounting Sleeve       | : ABS                        |                         |             |
|                       |                              | Beam Angle              | : 20°       |
|                       |                              | Optical Lens Efficiency | : >85%      |
